NORTHVIEW
V I K I N G S

ABOUT US

For almost 60 years, Northview High School has been home to a myriad of students who have hailed from extremely diverse backgrounds. We are more than random brick and mortar buildings where teachers stand and deliver curriculum. We are a safe haven to more than 1,300 students. Northview is where our students come to feel nurtured by a staff that cares for their students and their colleagues. At Northview, we empower our students to question, investigate, analyze, collaborate and resolve and in doing so—they evolve. Northview is where our stakeholders work tirelessly to do whatever is best for our students. We are a body of people whose driving purpose is to provide quality education for our students. We are a Viking family that is committed to creating lifelong learners and problem solvers. Northview is where students feel safe and teachers feel supported because we believe that creating well rounded, creative, caring students is as important as preparing each one of them for college and careers.

Northview is the home of our Viking Nation.

VISION

Our students will be independent, resilient, life-long learners who have the skills necessary to succeed in a global society.

Northview is committed to a school-wide effort to have all NHS students be expert problem solvers. Students will show measurable growth through the implementation of strategies that promote critical thinking, collaborating and effectively communicating as measured by department generated common assessments, grade distributions, A-G completion rates, district-wide writing assessments, and state wide common assessments.

MISSION STATEMENT

The core purpose of Northview High School is to establish and empower a community of problem solvers who effectively collaborate, think critically, and communicate. Resolve To Evolve

ACADEMICS

9th Grade

Pre-AP Biology, Pre-AP World History, Pre-AP English- Northview High School offers Pre-AP to all students in the 9th grade to prepare and expose them to AP classes to enhance their learning experiences.

Math 1 Python- 9th grade students learn Integrated Math 1 concepts which is also embedded with computer science. Students learn the conceptual skills in Math 1 and deepen their learning by coding math.

10th Grade

AP Seminar (10th Grade English) - Northview High offers 10th grade students exposure to Advanced Placement classes through AP Seminar through 10th grade Comp Lit II curriculum. AP Seminar is one of two classes in the AP Capstone Pathway.

11th Grade

AP Seminar

12th Grade

AP Research

VIKING FAMILY

AP AND HONORS COURSES

9th Grade

- Pre-AP Biology
- Pre-AP World History
- Pre-AP English

11th Grade

STUDENT LIFE

Over 65% of our students are involved in extra-curricular activities such as band, color guard, athletics, or cheer to name a few. Add to this, 35% are enrolled in CTE pathways that have co-curricular projects and events. Our Yearbook and Viking Vision journalism teams are exemplary in showcasing as well as archiving the best of our site. Along with our extra-curricular programs, we house 22 active clubs on campus.

FACILITIES

Our beautiful campus sits on 43 acres in the northwest section of the City of Covina in the county of Los Angeles. Due to the generosity of our community, our campus has seen a wealth of growth and expansion. A few of the significant remodels we have seen include a new entryway, a remodeled library, a state-of-the-art science laboratory, a new quad with an amazing model Viking Ship, and a brand new aquatics facility. Our site is currently home to 48 permanent classrooms, including a science lab, 8 portable classrooms, one administrative building, an industry-leading media/film production studio, a newly renovated Flex Room for collaborative meetings and team teaching, a renovated gymnasium, a cafeteria, a woodshop, a newly renovated track and field course, a junior varsity football field, varsity baseball field, both junior varsity and varsity softball fields, a wrestling room, a newly renovated weight room and multiple tennis courts. Our most recent and exciting renovation has been to our library which now reflects that of a college campus library. It contains three private, sound-proof rooms that can be reserved for study sessions or group meetings; each room contains wi-fi and large touch-screen televisions to practice group presentations.
