PRINCIPAL'S MESSAGE

Hello Northview Familia,

This is our last week before winter break. I hope that you all get the opportunity to rest and recharge and have an amazing holiday season.

This week is also Finals Week. Please see our finals schedule on the right and be on the lookout for reminders on Parent Square. Northview High School was once again recognized for having the

highest average daily attendance amongst all high schools in the entire district (93.65%). Our district goal is 95% attendance and I'm confident that we can reach that goal.

The first day of the second semester is Monday, January 8, 2024.

Enjoy your well-deserved break.

Wellness Corner

Consider taking time in the upcoming weeks to engage in a reflective practice such as journaling. Writing about our emotions can be an effective way to help us increase our self-awareness. You may jot down how you have felt lately in various situations and with different people, what you expect to feel over the coming weeks, what you would like to feel, and how you may get there.

Once you have spent some time journaling, review any patterns and strategies you would like to use to show up more often as your best self. One resource that may be helpful is the [How We Feel App](#). It offers a quick and private way to better understand your emotions. It is free and available in the App Library for iOS and in the Play Store for Android users.

Staff Spotlight

Ms. Pamela Smith has been a member of the Viking family for 25 years. She is the ultimate example of school spirit, and her dedication to our sports teams is unlike any other. Ms. Smith coaches students in the classroom, perfecting their skills in math, and she shared her sports knowledge on the field when she coached Volleyball and Softball. As if that wasn't enough, she works the clock for girls and boys varsity basketball. The boost of student morale and kind leadership skills have helped these students feel supported. One thing is for certain. If you play a sport, Ms. Smith has seen you play. You know what they say about math teachers... They are a person who helps you solve problems you'd never have without them.
